## MEDICINAL.

Each of the chief organs of the body is a link in the chain of life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of heart or lungs, liver or kidneys, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of disease of the stomach and other organs of the

digestive system. When the diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

"I was in poor health when I commenced taking Dr. Pierce's Golden Medical Discovery," writes Mr. Elmer Lawler, of Volga, Jefferson Co., Ind. "I had stomach, kidney, heart, and lung troubles. Was not able to do any work. I had a severe cough and hemorrhage of the lungs, but after using your medicine a while I commenced to gain in strength and flesh, and stopped coughing right away. I feel like a different person. I gladly recommend your medicine to all sufferers, for I know it cured me."

The use of Dr. Pierce's Pleasant Pellets will cure that foul breath.

WILL IGNORE BRYAN.

Advices from Springfield, Ill., say

that the democratic convention there

today will be one of the most conse-

crative ever held in that State in recent

years. Many delegates who have not

attended a State gathering of their

party to eight or ten years will be

present, and there is among them a

strong disposition to steer wide of sen-

sationalism. It is practically certain

that there will be nothing in the plat-

form favoring either Wm. Bryan or

free silver. Among the men opposed

to declarations on these points are

some men who have been in the past

enthusiastic partisans of the man from

Lincoln. The convention will declare

hotly against "government by injunc-

tion," and it is expected that the plat-

form will contain a ringing provision

to that effect. Samuel Alchibler has

been elected to the chairmanship of the

committee on resolutions. He has de-

clared that he does not care for an in-

ducement for United States Senator,

and the present feeling of the delegates

is that no action will be taken in this

direction in favor of anybody. There

is considerable discussion, however, on

this point, and the sentiment may

change decidedly. The purpose of the

convention is to nominate candidates

for State treasurer and a number of

less important offices. The nomination

of Millard F. Dunlop, of Jackson-

ville, for State treasurer is regarded as

certain.

Other planks will be inserted de-

claring in favor of territorial govern-

ment in the Philippines; endorsing the

attitude of the national party leaders

on the tariff; declaring against the

interference of the Federal courts in

matters relating to the revenue laws of

Illinois; declaring against government

by injunction. There will also be a

plank of Cuban reciprocity.

WHALES FIGHT SHARK.—The Ameri-

can liner Ryndland arrived at Phila-

delphia from Liverpool yesterday morn-

ing. The passengers told a thrilling

story of a bloody battle between a shark

and a school of whales, which they wit-

nessed on June 12 off the coast of Nova

Scotia. It was about 10 a. m., on the

13th when the passengers upon the

promenade deck saw away off what

they took to be a group of logs. It was

soon seen, however, that the supposed

logs had motion, and were rapidly mak-

ing their way toward the ship. When

the huge objects came nearer it was

seen that it was a school of whales.

There were eight of them, and they pre-

sented an unbroken front. Suddenly

just behind the whales the watchers

saw another monster cleaving the water

rapidly, overhauling the whales just

ahead. "It's a shark!" burst simulta-

neously from the passengers' lips.

"Now for a battle royal!" In a few

minutes the battle was on. With a

terrible lunge forward the shark

plunged into the midst of the whales.

As he darted into the cluster of whales

he turned. The whales closed in on

him. Biting like a bulldog at the

whales, the sea was soon crimson with

blood. The whales spouted, but it was

more in anger than in terror. While

the battle was at its height, the

biggest of the whales was seen sudden-

ly to charge the shark, but the shark

was too swift for him. Then the rest

of the whales closed in on the shark,

and he disappeared for a brief period.

Through run down repeatedly the shark

rose to the surface each time with all

his ferocity and agility. But the shark

was doomed. One big whale made

another dart for the shark, and bring-

ing down his great fluke with mighty

force, almost split the shark asunder.

This ended the fight, and the dead

body of the shark was soon floating far

astern.

MR. BRYAN ON CAMPAIGN ISSUES.—

Mr. William J. Bryan passed through

Kansas City yesterday en route from

Lincoln, Neb., to Neosho, Mo., where

he lectured last night. "It is too early

yet to say what the issues will be at

the next Presidential campaign," he

said in reply to a question. "I think

that imperialism will be one of the

principal ones, judging from the action

of the House. The money question

will also come up again. As to what

part free silver will play I cannot say.

The Republicans fear to discuss the

Fowler bill. They say that the money

question is a corpse, but the corpse has

so much life in it that they fear to push

this bill before election, and have post-

poned it until the second session. The

trust question will also come up for

consideration in the next campaign.

At the present time democratic chances

look good."

IMMORTALITY IN THE UNITED STATES.

A pamphlet by Felix Baumann is hav-

ing an extraordinary circulation in

Berlin. It is entitled "In Darkest

United States" and contains extra-

ordinary descriptions of the immortality

alleged to exist in American cities.

There are long chapters on New York,

Chicago, New Orleans and San Fran-

cisco. The writer has raked together

accounts of cruel lynchings, police bri-

beries and the sale of justice in cities.

## More Harmful Than Alcohol

Overeating Worst Form of Intemperance.

If your food is undigested, you are un-

derfed, no matter how much you eat.

And the underfed man is, to the extent

of the underfeeding, crippled for the

battle of life. On the other hand,

there is such a thing as overeating.

The harm done by indigestion caused

by overloaded stomachs exceeds that

caused by the increased heart beats caused

by the use of alcohol or whiskey.

Eat as much good food as you need

but don't overload the stomach. If

your stomach is weak it may refuse to

digest what you eat. Then you ought

to use a good digestant like Kodol Dys-

pepsia Cure, which digests what you

eat without the stomach's aid. This

rest and the wholesome tonics con-

tained in Kodol Dyspepsia Cure soon

restore health. You don't have to diet.

Don't eat too much. That's harmful.

But eat enough and of sufficient vari-

ety. Kodol Dyspepsia Cure will digest

it. It quickly relieves the sensation

of fullness and bloating from which

some people suffer after meals. It

prevents belching and absolutely cures

indigestion and other stomach trou-

bles. Equally good for children.

Lemuel James, Marysville, O., says: "I suf-

fered from dyspepsia for thirty years, and

a few bottles of Kodol Dyspepsia Cure com-

pletely cured me and I heartily recom-

mend it to all sufferers from this disease."

Kodol Dyspepsia Cure

Cures All Stomach Troubles.

sistent on every new stand. The
